## PERSONAL STATEMENT

My name is Robert E. Harris and I am asking for your support for reelection to the CIRI Board of Directors. I believe that it is important to continue to grow our company to provide a stable stream of dividends and opportunities for Shareholders, and to protect our cultural heritage for the many generations of Shareholders to come.

I was raised in Anchorage and on a family homestead in north Kenai. From my time on our family's homestead, I learned the value of hard work, which has helped me throughout my career. My work experience has given me hands-on experience in business development, from running my own consulting business to a startup energy services company. I have also worked in new venture technology development, and with established companies seeking to improve their operations and profitability. Most recently, I served as the chief fiscal officer for the Municipality of Anchorage, and prior to that, I managed teams of engineers designing electric power generation facilities.

CIRI faces a number of important challenges and opportunities in the years ahead as we work to grow Shareholders' equity and serve our Shareholders. To continue growing CIRI, I believe we must continue to innovate and seek new investment opportunities in order to improve our profitability. We have to continue the hard work of improving what we already do well so that we are ready for the future.

I hope to continue to bring my energy, experience and education to work for you as a member of the Board, making it possible for us to realize the best that our future has to offer. If reelected to the Board, I will serve with honesty, integrity and dedication. Thank you for your consideration and I ask for your support of the Board-recommended slate of candidates.
